## Project Engineer of Pneumatic Systems

### WHO WE ARE

Emerson is a global technology and engineering company providing innovative solutions for customers in industrial, commercial and residential markets.

Our Emerson Automation Solutions business helps process, hybrid, and discrete manufacturers maximize production, protect personnel and the environment while optimizing their energy and operating costs.

### ABOUT THE JOB

At our Customer Solutions Team we are responsible for unique product and solution development.

Now, we are looking for an engineer team member to our passionate and competent team who would help the solution business from the very first idea till the market launch of the customer specific products and take care of them during their lifecycle.

If You're looking for an opportunity to work with a dedicated and skilled crew then this is the one for You!

As part of our team, you could help us in **developing new unique design** and participate in the electro-pneumatics system **projects**. During your work You will have the opportunity to understand what the customer wants, make customer visits, and have a role in transforming unique customized products.

### Your Profile

We need your **good** cooperation and **English** skill daily to liaise with other local departments and internationally.

You are **BSC** or **MSC**, have a few years of work experience and you can design in **3D CAD**, then we are looking for You.

Experience at other multinational companies is a plus.

You love engineering and are great at it, you as a candidate are motivated to work on a project alone, but can easily work in a team, as well.

#### What we offer

Besides our competitive package, you would become part of a young and engaged team. Remote work will remain after pandemic, but You may choose if you want to spend your office days in Budapest (District VIII.) or in Eger in our recently opened new plant.

If you are interested in our application, send your application to HR department: [hreger@emerson.com](mailto:hreger@emerson.com)
